Senneca Holdings Announces Strategic Acquisition of Hercules from Kingspan

Cincinnati, OH - October 1, 2018 - Senneca Holdings (“Senneca”) announced today the purchase of Hercules, a leading manufacturer of high quality, custom, controlled environment doors. Hercules is focused primarily on blast freezer, freezer, cooler, dock, ripening room, automotive test cell, processing, research, and distribution facility applications. Kingspan will continue to provide Hercules doors as an integral part of their offering, allowing Hercules customers to receive the same great customer service they have come to know.

“Our acquisition of Hercules is a unique opportunity for Senneca to add complementary products to our existing portfolio and expand our customer base. It will allow us to better service existing customers through expanded manufacturing capabilities while providing a single point of contact for all their specialty door needs,” said Brian Leary, President of Senneca Holdings Industrial Business Unit.

Alswinn Kieboom, President of Kingspan Insulated Panels added, “Senneca is a leader in the specialty door market and the sale of Hercules allows us to focus on our insulated panel business, while still offering customers a complete solution. Hercules customers will continue to receive industry leading support from their existing Kingspan sales team.”
